OUR MISSION

The South African and International market for talented, skilled & experienced staff has never been more competitive, there is a particular shortage in Engineering and Technical skills.

In such a competitive market, it is 4G Consulting's mission to:

- Find, attract, filter & interview quality candidates
- Reduce time taken to recruit staff
- Maximise market research to identify the right talent at the right price

ABOUT US

4G CONSULTING is a wholly owned South African company established in 2005. We are proud of our current standing as a specialist recruiter in the provision of contract and permanent engineering staff to South African and international companies.

Our marketing strategy is focused on attracting the best talent available in South Africa to fulfill our clients' requirements.

Our offices are based in Johannesburg and we strive to function in a professional, yet friendly and personalized environment.

COMPANY VALUES

We strive to:

- Create a strong work ethic
- Attract the best talent
- Above all else, provide a valuable service to our clients and meet exacting requirements

SERVICE

Where possible we visit your premises to enable us to understand your operations and to provide the best possible support. This valuable insight into your environment ensures that your new employee, be they permanent or contract, will complement your internal culture.

COMMUNICATION

We understand the urgency of your needs and we start working immediately on your behalf whilst maintaining communication along the way.

CANDIDATES

We have built up a candidate database of over 3,000 suitably qualified and experienced professional engineers, technical staff, skilled trades' staff and industrial/commercial workers ranging from Civil, Mechanical, Electrical staff in the Petro-chemical, Mining, Construction and Manufacturing industry sectors. This enables us to select the best fit for your client.

- Project Managers
- Project Engineers
- Project Planners
- Construction Project Managers
- Construction Superintendents
- Civil Engineers
- Electrical Engineers
- Mechanical Engineers
- Contract Managers
- QA/QC Managers
- Site Managers
- Quantity Surveyors
- HSE Managers & Officers
- Cost Engineers
- Instrumentation Engineers, Electricians & Supervisors
- Etc

GROWTH

Mining, Petro-chemical and the construction industry has experienced rapid growth over the past few years. This has resulted in the demand for qualified and experienced engineers from diverse disciplines, technical staff and skilled trades' staff. As a resourcing house, 4G Consulting has entered into agreements with a number of companies to support their recruitment process.

Due to the growth and expansion of a range of large CAPEX projects in South Africa, the rest of Africa and Asia, we have also become active in recruiting talented expats to enhance our skills pool.

CUSTOMER RELATIONSHIPS

When placing staff with you, although our consultants are aware of the talent available on our candidate database, an extensive search is conducted to ensure that we attract the best match for your organization.

4G Consulting prides itself on the emphasis it places on ensuring customer satisfaction. Therefore, we have adopted a personal approach and interview the applicants either at our premises, yours, or a suitable venue. As part of this approach, we conduct telephone evaluations, interviews, background checks, skills assessment to match the correct candidates to your needs.

We endeavour to maintain an ongoing relationship with you and continuously monitor and review the performance of our staff placements. We are also committed to provide you with support for your future staff solution requirements.
